Guiding questions for Options Appraisal

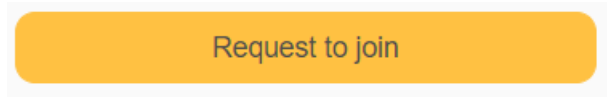

Guiding questions

- Are the risks to implementation clearly understood, and do the options address those risks?
- What are the costs and benefits – monetary, social, cultural, and environmental impact, etc. – of the proposed development choice(s)?
    - What was the primary reason for the option chosen?
- Have the necessary resources and legal frameworks been put in place to enable implementation?
- How does the development option need to be adjusted to avoid and reduce risk creation, and to capture potential benefits?

Thank you very much for your attention!
